

The Little Paint Man says:

When you want fresh paint go to HALL'S and buy some; don't take it off the lawn seats because you can get it for nothing. By the way, The Little Paint Man wants to know if your floors do not need touching up? If they do, Sherwin-Williams Porch Floor, Inside Floor or Floorlac will interest you. Finishes that cover well and dry quickly, and last but not least, every can has the name Sherwin-Williams on it, and that settles the question of quality.

Mallet Wins
FROM INDIGOHot Favorite Follows
Polo Pony All
The Way

Indigo, the two-to-one favorite, was not in it for a minute yesterday afternoon at Kapiolani Park. Mallet, the little polo pony, was the whole show. The other day Indigo beat Mallet so badly that it was hard to find a backer who was willing even to take a 2-to-1 bet on E. H. Lewis's game little horse. Consequently the surprise was great when Mallet leaped into the lead after the first twenty-five yards, and kept the distance the rest of the quarter-mile run.

The race was run on a straight-away course on account of the fact that the track was muddy at the last turn. Mallet was good all the way, never weakening, with Henry Lewis up. Lewis rides his horse well, and seems to use good judgment. Otopio was on Indigo, and he used the whip freely.

"Pull the pony," was the cry that went up when it was seen that the two horses were off together. And the cry was echoed by a dozen similar before the horses crossed the finish line. There were a great many sports who had taken the bad end of a 2-to-1 bet on Mallet, just for a gambler's chance, they said, and their money looked mighty good by the time the race was over.

The time caught at the finish was 26 seconds, but the race was probably faster than this. Mallet had the lead by a good length at the finish.

George Ward wanted to race Mallet three-eighths of a mile right after the first race, but Lewis wouldn't stand for it, naming next Wednesday. A \$50 forfeit was posted for a race on this day. Saturday afternoon Candy Boy and Mallet will hook up. This will be their third race, each having a win to his credit.

WOOD TELLS OF
PROMOTION WORK

Secretary Wood has prepared the following report which he will submit at the meeting of the Promotion Committee this afternoon:

During the past three months we have sent out 7500 postal circulars, special; 6000 Primers; 600 Christmas edition "Paradise of the Pacific"; 1200 "Picturesque Honolulu"; 500 special edition local papers; 150 maps "Cross Roads of the Pacific"; 14,000 general folders; 2700 letters, special and general.

By the last steamer to the South, we forwarded the regular quarterly supply of our folders to all principal points in Australia and New Zealand. By the S. S. China, due to sail the 23rd, we will forward our regular quarterly supply of folders to Hong Kong, Yokohama, Manila, Bombay, Calcutta, Constantinople, Colombo.

From Hongkong we cover China and Siam, and with Yokohama, as a distributing point, we reach the leading cities of Japan. Largely as a direct result of our persistent work in the Orient, the number of stop-overs has perceptibly increased and bids fair to become an important item in the tourist business of Honolulu.

Since the first of the year we have received requests for our printed matter from upwards of one thousand railway agents, west of Chicago, principally from the northwest.

Mr. Leon Collier, the tourist agent from Boston, who passed through on the Siberia this week, with a party of sixteen, for a Round-the-world-tour, states that the outlook for the season of 1908-9 is unusually bright. His firm is already making bookings for the Fall business and from this on they will pay more attention to travel to Hawaii.

The Ash-round-the-world party of sixty people, including two newspaper representatives and an interpreter, is due to arrive here on the Mongolia the 28th. Thomas Cook & Son are sending a special conductor who will arrive by the China to meet this party here.

Following is the table of contents of the new edition of Mr. Jared G. Smith's pamphlet on Agriculture in Hawaii, which will soon be ready for distribution:

Agriculture in Hawaii. Contents: The Climate of Hawaii; The Soil; Commercial Fruits—Pineapple, Banana (The Chinese Banana), (The Java or Bluefields), Mangoes, Citrus Fruits, Grapes, Avocado, Coconut; Flowers; Bees; Stock and Poultry—Dairying, Poultry Raising, Stock Raising; Silk; Field Crops and Industries—Sugar, Coffee, Rice, Sisal, Rubber, Ray and Forage, Vanilla, Tobacco, Corn; Vegetables; Advantages and Disadvantages.

To the pamphlet will be added a chapter on our land laws by Mr. James W. Pratt, Commissioner of Public Lands.

SCHOOL TEAMS
ARE WIDE-AWAKEDoping Out Prospects
For Coming Season—Grounds

Although the season is as yet quite a little ways off, already interest is being awakened in interscholastic baseball. This year will probably see a larger number of teams in the field than in any other previous season.

The Normals, who have entered a baseball team but once in the history of interscholastic baseball, are thinking seriously of playing this year. A number of fellows who formerly played on the teams of other schools are now studying at the Normal and a fair chance for the championship is theirs. Among the men Normal has to pick from is Toomey, an ex-first baseman from Kamehameha. Toomey did some excellent work last year and while the Kams came out at the tail end of the list, he was not to blame for it.

Punahou will have as strong a team this year as they had last; possibly stronger, as they have a few unknown quantities in the shape of new pupils at their school. The Debra boys are there yet, and their work will go a long way toward making the team a success.

The Kams are of the opinion that their part in the games will not be as it was last year. Lots will do his best to have his team come out ahead, and he will have effective help in Kamaopili, who played as clean a game as did any other man in any of the other teams.

High School wants first place this year. Their success in interscholastic boys' basketball has inflated them to such an extent that nothing but the championship will satisfy them. Blanchard will coach again and some good plays are expected from this popular team. Almost all of last year's team is back at school and the Highs have a surprise in store for their opponents in the shape of a new man—one who has made good before this.

Whether Aliolani will enter a team is largely a matter of conjecture. They played a good set of soccer games and should have some good baseball players. Coach Anderson could put them in shape to hold their own against the rest of the league.

School athletics have taken a pretty thorough hold of the scholars and some good games may be looked for. Some of the games last year played by the members of the school league were as good as many played by the major league, and in all likelihood the same will prove true this year.

Some talk has been going the rounds of trying for the League grounds on which to play off the series. Whether or not the place could be secured is not known. Should it be found impossible, the Punahou and Kamehameha diamonds will have to be used. Neither the High School or the Normal own baseball fields. Makiki, the place where the school soccer games were played, has also been mentioned as a possible place for the games. However, it is as yet too early to worry about the grounds, and the teams are being chosen by school fans with as much interest as local fans showed when the All-Hawaii team was being picked.

GIRL ATHLETES AT KAMEHAMEHA BOLD TRACK MEET

And now come the Kamehameha girls! Enthused with the success of their school brothers the girls are training for their own track meet, which will probably take place the latter part of this month. Misses Kurney, Scholtz and Holloway are now picked as winners, but a mouse dropped among the starters would probably develop great speed in several "unknowns." The event is looked forward to with great interest.

The St. Louis team practised first at Aala Park, but they are now turning out at the Kakaako League grounds. Barney Joy will probably be behind the bat for the college nine and Johnny Williams in the box, but this has not, of course, been definitely decided as yet.

What's the matter with the Kamehameha baseball team this year? So far as can be learned they have not even met and organized this year. Fern and Amy are two of their men who have been out practicing with the Diamond Heads.

LITTLE INTEREST
IN BASEBALL NOWOnly Two Clubs Are
Practising—Diamond
Gossip

This appears to be a dull year for the "big" baseball teams in Honolulu. It is hard for the managers to get the men out to practise. Ball-players seem to have fallen into a sort of apathy, which, if they do not recover before the season opens, will prove a knock-out blow to the year's schedules. As yet there are only two teams that have done any practise, and one of them, the St. Louis aggregation, has only been out a couple of times. They practise once a week, which is not enough to get a player loosened up in the early part of the season.

Early season practise should be gone at easily, but, above all, steadily. There is a great deal of harm done among the ranks of the young ball-players all over the country in the first part of the season, simply because when practise is indulged in, the players work too hard, use their arms too much, and consequently weaken them. A half-hour's work each and every day is a thousand times better than two or three hours work every other day.

There are a number of stars in the lesser leagues here who could break into faster company if they so desired. V. Ayau is a quick, sure man around the shortstop territory, as is also Sing Chong, the Chinese athlete. Both of these men would be gobbled up by the big teams in a minute if they evinced a desire to make a try at it. Then again there are Tahu and Makanihi. Tahu is a third baseman who has a corking good whip over to the initial station. He is "wanted" by the big fellows. Makanihi's fame lies chiefly through his terrific swatting abilities. It is said also that he is a fend on the bases, and can go some. A good hitter, whose batting is regular, can always win a home.

The Diamond Head athletic team has been doing most of the practising this year, although as yet they have only been out twice a week. It will not be long, however, before they will get down to the genuine article in the way of work. Although it has not been decided this early in the season, it is probable that the first practise game of the Diamonds will be played with the St. Louis ball-tossers. There is no reason why the teams this year should not furnish faster ball than has ever been seen here before, for they have had the advantage of seeing how the real "profess" cavort on the diamond.

DOWN THE LINE

When Otopio passed through the crowd last Saturday, after winning in a walk from Mallet, the enthusiasts lifted their hats and cheered. Yesterday it was noted that a murmur was heard nor a movement seen when the native jockey silently led his blanketed horse down the road. Fickle Fortune!

From the finish line it didn't look as if Indigo was in the lead at all during the race yesterday, but Starter Harris says the pretty bay held the best position the first few jumps.

Backers of Indigo still feel sure that their horse is the better, and they are anxious for another race. They will have to wait until Wednesday next.

"Dicky" Davis was in town the other day. He says there are some fast ponies over his way, and the Fourth of July meet will be a great one in Hilo.

E. H. Lewis says that business will not allow him to race his horse any more after next Wednesday.

Racing is certainly picking up. There are two matches set for this week and one for next.

Charlie Bellina has a pedigreed stallion which he recently brought down from the Coast.

The judges yesterday were A. H. Jungelaus, Mark Houghtailing and Lester Petrie.

There is some talk of getting up a swimming tournament in the near future.

There is some talk of matching trotting horses in the near future.

WHITNEY & MARSH

COMMUNICATION

Sporting Editor Bulletin:—From information received it seems that Dr. Hand made a mistake relative to the status of the Kamehameha track team, entered for Saturday's sport events and, instead of calling on Principal Horne, or any one else, relative to the matter, he sought publicity by sending a wireless to one of the papers. Dr. Hand called on President Horne, after the publication of his note, and that authority plainly and tersely showed the sporting medico the error of his doings, and placed him in the straight and narrow way. The "Kamehameha Track Team" is all right, and the entries will all be there to make good. Rah, rah, Kamehameha!

(Signed) FAIR PLAY.

SPORTIVE SPLURGES

There will be a meeting of the Kalamianale Baseball League at the home of President Vierra one week from tonight, when all the business for the season of 1907 will be closed up. The members of the league will also consider a suitable method of presenting the championship trophy cup to the Chinese Athletic Club, which came out with flying colors after the hardest fight in the history of the club. Several resolutions will be adopted. President Vierra is sending out the notices today.

Stanford University, March 10.—The Varsity baseball team today defeated the team from St. Vincent's College of Los Angeles by a score of 3 to 1 in the best game seen on the campus this season. Witmer was effective throughout the game while Yarrando of the Southern team was weak at critical moments.

The prizes for the winning athletes Saturday will be distributed by the following ladies: Mrs. W. F. Frear, Miss Virginia Frear, Mrs. Knudsen, Miss Ruth Knudsen, Mrs. Grainer Smith, Miss Dorothy Smith, Mrs. F. J. Lowrey, Miss Alice Moore. Mrs. Frear will crown the victors with leis.

Kite-flying is being boosted as a sport. "Sky-day" will be an annual affair if the idea makes a hit.

Sorenson & Lylo have just completed a new cat-boat for Dr. Sanford. It is a pretty little craft, and will be able to cut through the

waves at a good speed. The mast will be placed in the boat today, and it will be launched a couple of days later.

The fastest kind of running will be the order of the day at the Boys' Field Saturday. All of the main contestants have been in training for a long time and they will be in the pink of condition when the starter sends them off on the various races.

The following donations to the yacht were received yesterday: E. O. White, canvas for skylight and hatch covers; Anne Marie Prescott, china plate with Hawaiian coat-of-arms; Robert Rycroft, sextant; Henry Giles, sailmaker's outfit.

Kamehamehas have won two championships—soccer and track meet—from the Oahus. The Oahus have won the football championship and are now laying their plans to capture the coming baseball championship, to even up.

Improvements are going along in great shape at the Country Club. The buffet is being built downstairs under the lanai, a very suitable place indeed. Other improvements that are now taking place will make the club-house ideal.

The charge against the Kamehameha track team has been withdrawn. P. L. Horne, president of the schools, stated that the team was composed of members in good standing who were eligible to run under the school colors.

A number of the local small yachts have been on the marine ways lately. A cruise will probably be organized in the near future.

The Hawaiian Gun Club will start the prize shooting next Sunday morning at 10:30 o'clock.

Captain Lyle and Navigator Harris! Looks pretty good, eh? Now, the crew!
